Intersolar Europe & ees Europe at Munich Trade Fair

Manufacturers, suppliers, distributors, service providers and partners of the solar industry will come together at the Intersolar Europe end of this month. The world's leading exhibition of the sector is focussed on new technologies and current developments in the area's of photovoltaics, energy storage systems, renewable heating technologies and solutions for smart renewable energy.

Parallel to the Intersolar Europe, the ees Europe, Europe's largest exhibition for batteries and energy storage systems, will take place at the Messe München exhibition centre and provide insights into the latest battery and renewable energy storage innovations. This year, a particular focus will be put on e-mobility.

Our team from IBESA, Joint Forces for Solar and EuPD Research will be present for you on several events at both exhibitions. Meet us at our joint booth at B1.151A on all three exhibition days and find an overview of our activities [here](#) »

We are delighted to present our partners speaking at the ees Forum:

Frank Baumann,
Head of Global Sales/Deputy Managing
Director,
GILDEMEISTER energy storage GmbH

Andrea Bodenhausen,
Director Marketing,

| IBESA.

The **International Battery and Energy Storage Alliance** is an international network that provides its partners with the market knowledge in form of data, market analyses and facts necessary for their business development as well as networks them with the relevant target groups in international markets in cooperation with other institutions.

All **IBESA** partners benefit from an extensive information and services portfolio which ensures a measurable positive return on investment. The international IBESA network substantially promotes contact to partners, investors and customers.
