

## NEW OPERATIONS OFFICE IN BRAZIL FOR AEG SOLAR BUSINESS IN LATIN AMERICA

Frankfurt am Main, August 17, 2017 –Solar Solutions, official supplier of AEG photovoltaic products (the brand owned by the Electrolux Group), announces the expansion of their Latin American business with the opening of a dedicated Operations office in Campinas, State of São Paulo, Brazil. The new office will serve customers from Brazil and the wider Latin American area. Earlier this year, AEG solar modules obtained a top rating in the INMETRO certification by Brazil's National Institute of Metrology, Quality and Technology.

“The new Operations office will allow us to follow even more closely our customers and their projects in Latin America and provide them with AEG solutions tailored to their specific needs. Brazil is a promising market for us; we are ready to address it with the reliability and exacting German quality standards of the AEG brand. We are looking forward to expanding our distribution network in Brazil and adjacent countries and to reaching out to a large number of customers in Latin America with the AEG quality experience.”, so states André Thiessen, Solar Solutions Sales Director South America.

Of German origin, with many years' experience in the operation and installation of solar plants, and with an excellent network in the local solar industry, developed over three years of presence in Brazil, Mr. Thiessen aims at bringing the expertise of his team and the best of the AEG brand experience to the customers in South America.

The AEG product portfolio encompasses a wide range of photovoltaic products satisfying the need for flexibility and reliability in solar plant planning. AEG product quality was acknowledged by INMETRO and other independent certifying institutes. The products are manufactured with quality components and tested to withstand extreme weather conditions that are prevalent in some regions of South America.

The distribution network of AEG solar modules and monitoring solutions has seen a significant expansion in 2017 and reaches today, customers in over 20 countries worldwide.

Solar Solutions welcomes customers at Intersolar South America in Sao Paolo (August 22-24) at the Expo Center Norte, stand F 38 (German pavilion).

## ABOUT AEG

Part of the AEG family with its hundred-year tradition as a leading German brand in the field of electrical appliances owned today by Electrolux Group, AEG quality photovoltaic modules stand out for their reliability, aesthetics and enhanced usability. Each AEG module is developed to one idea ahead in the world of smart solar to grant users full control over their yields and peace of mind. AEG modules integrate IMM as an optional feature, a smart technology for highly accurate monitoring at module level, enabling detection and prediction of performance issues from individual modules up to the whole PV plant. This allows for tailored O&M interventions, maximizing yields and driving down maintenance costs. AEG solar modules are distributed worldwide under license by Solar Solutions GmbH, Germany.
