

## **RECOM approved by the Turkish government for 200 MW module supply**

**DÜSSELDORF, Germany, September 21** – RECOM, the largest European PV module manufacturer, became **one of the few** international manufacturers of solar modules **to receive the surveillance certificate Gözetim - import license from the Turkish Ministry of Economics.**

RECOM will supply a total of **200 megawatts (MW)** of Polycrystalline solar modules for Turkish photovoltaic projects within the following months, aiming to become the leading module supplier on the rapidly growing Turkish market with abundant potential for renewable energy development.

As per the estimates of the Ministry of Energy, the solar installed capacity is expected to be increased in Turkey in the coming years and reach 5 GW by 2023.

“There is a great demand for high-quality modules on the Turkish market. Even though obtaining the Surveillance Certificate was very challenging, the outstanding performance of **RECOM** modules has been validated in many large-scale projects worldwide and we will accompany the transition to low-carbon economy in Turkey as **a strong and reliable partner.** We are confident to play a major role in re-shaping the dynamics of future solar development and provide to our customers all the benefits of modern technology.” says RECOM’s CEO, Hamlet Tunyan.

The issuance of the Gözetim certificate proves ones more RECOM’s determination to rise up to the challenges of any demanding market by providing premium PV modules and advocating global commitment to preserve the environment and promote the transition to cleaner, safer and affordable energy.

With highly automated European **production facilities** and large capacity in three EU countries, **Italy, Poland and France**, strong financial background as well as a proven track record in projects worldwide, RECOM has confirmed its strategic European and global leading position in the solar world.

### **About RECOM**

*Established in 2007, RECOM has marked a fast and steady growth as a PV module manufacturer and an IPP. RECOM’s business philosophy is focusing on promoting worldwide reliable, cost-efficient and environmentally friendly solar solutions. Our mission is to advocate global commitment to social and environmental considerations, promote the benefits of solar power and the switch to cleaner, safer and affordable energy. RECOM HQ Address: Königsallee 106, Düsseldorf 40215, Germany, Phone & Fax numbers: (P) 49211546922291 (F) 49211546922292. Email: [marketing@recom-solar.com](mailto:marketing@recom-solar.com).
