Maximizing **Your** Brand Exposure in Key Region

Joint Forces for Solar (JF4S) is a global synergy of solar stakeholders ranging from multinational corporations to industry associations and local installation companies. We aim to expand the use of solar technologies at the global and local level and establish a vibrant renewable and clean energy industry.

To make your brand, products or services stand out from the crowd, JF4S provides target group oriented marketing support and all the benefits of its extensive local networks around the globe.

The JF4S full-year membership includes extensive opportunities to boost visibility and take the floor at numerous international presences realized by renowned event formats.

JF4S – the international PV network

- » 10 years
- » 18 countries
- » 38 locations
- » 200 + events
- » and more than 50,000 delegates

JF4S Committee

The Joint Forces for Solar regional Committees are hand selected individuals who are most influential in their respective industry segment and region.

The overall goal is to create a unified industry voice in order to foster market development throughout the respective regions.

As a team, the JF4S Committee shall proactively promote the need for renewable energy deployment in the region, educate stakeholders across the whole value chain on a local level and collaborate with governmental bodies in regulation and policy development.
