The US company has purchased solar panels manufacturing facilities in Europe to provide a fast and reliable supply

AIONRISE Holding Inc. (Delaware, USA) has purchased fully automated solar panels manufacturing located in Georgia, Europe in March 2021. The main target markets for a brand are the USA and Europe. The factory was built by Swiss and German PV technology companies and started operation in 2019 with an annual capacity of 500MW.

AIONRISE solar panels are certified by TUV Rheinland according to UL and IEC standards. The company is operating warehouses in the USA, Germany, and Georgia with the rapid expansion of the distributorship network. Brand strategy is based on a stable supply chain of high-quality products using European made components, fast delivery time to target markets, and affordable, flexible pricing.

AIONRISE is a proud member of SEIA, EUPD Research, Joint Forces for Solar, and IBESA. The company will be exhibiting at SPI North America in New Orleans, LA September 20-23, 2021, and at Intersolar Europe, Munich, Germany October 6-8, 2021.
