

Dear Clean Energy Professionals,

The smarter E Europe 2023 has been the largest and most international event in its history to date, setting the course for a 24/7 renewable energy supply.

| Key Facts:

+2,400 exhibitors from 57 countries showcased products and solutions across 180,000 square meters in 17 exhibition halls and an outdoor area

+106,000 visitors from 166 countries made their way to Munich to be part of the event this year

+2,000 participants from all over the world joined in the conferences and side events

>> All records broken

Whether you were able to attend the trade show or not, we make sure you can benefit from a digital **booth walkthrough video**.
